

The Purpose of Receiving a Safety Report On your Carrier.

- Obtaining a safety report on your carrier shows that you are doing your due diligence when qualifying a carrier.
- It allows you to see the history of your carrier and how they are performing.
- You can make a decision based on the driver's safety performance.
- It's the right way to onboard a carrier that you wish to have a long term experience.
- It teaches you to operate your logistics business with compliance in mind.
